

BLOCKS MANAGER FOR EDUCATION™

Internet content filtering for Google App Managed Chromebooks
in a 21st Century learning environment

Teacher dashboard

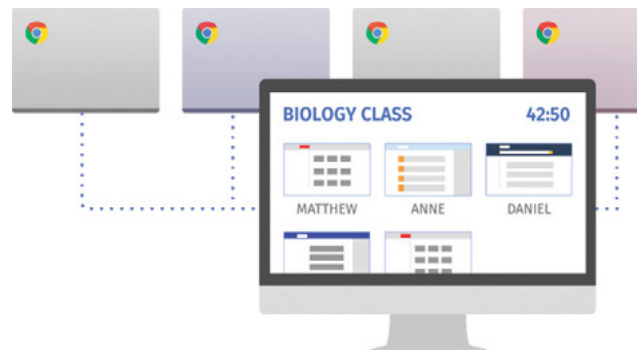

Blocks Manager empowers 21st century teachers, with a simple and efficient classroom Management System for Chromebooks, giving them the ability, just by glancing at the Blocks Manager dashboard, to see what is on every Chromebook at any point of time during the class, and to collect analytics to improve their pedagogy and develop their curriculum.

Dynamic Web and Youtube category based filtering allows teachers to enforce focus driven classes, so that only the meaningful and relevant internet content is made available to the students.

See what's on every Chromebook in your class

Monitor and View every student's Chromebook screen in the class

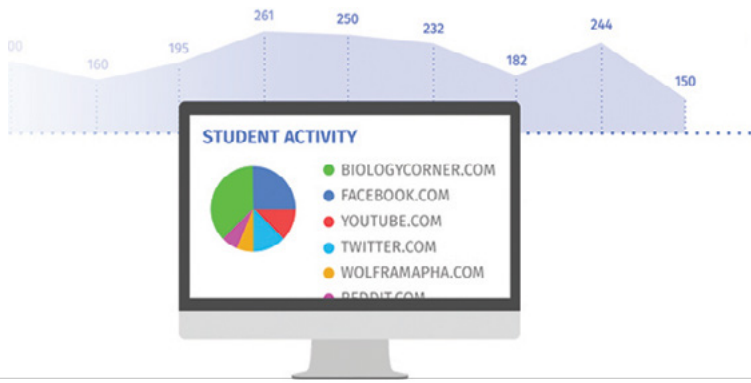

Fully Google Classroom compliant

Control or Block Internet during Assessments

Proactively and automatically filter the internet in your class

Trend Analysis & Analytics

Collect real time analytics on each class to develop pedagogy and curriculum

Enforce and manage internet content on every Chromebook

The teacher dashboard allows you to have full control over your class by giving you the ability to see what's on every screen.

analytics per student or per class, to drive pedagogy and curriculum development.

It allows you to push a filtering policy to each Chromebook in your class and get internet browsing

Blocksi Manager is fully Google Classroom Compliant so you can import existing Google Classroom classes or create your own.
