George Washington (February 22, 1732 – December 14, 1799) was an American Founding Father, military officer, and politician who served as the first president of the United States from 1789 to 1797. Appointed by the Second Continental Congress as commander of the Continental Army in 1775, Washington led Patriot forces to victory in the American Revolutionary War and then served as president of the Constitutional Convention in 1787, which drafted and ratified the Constitution of the United States and established the U.S. federal government. Washington has thus been known as the "Father of his Country".

To create a weekly scheduler, follow these steps:

1. **Choose between templates A and B, or create a custom template**
2. **Create the template by specifying the hours and dates for each day of the week**
3. **Once the template is created, you can add classes or events accordingly**
4. **Modify the hours and dates as needed to fit your schedule**
