Cost Reduction: Track Activities Across The Entire District To Ensure Maximum Return On Investment

With **Blocksi's App Usage Insights**, you can identify underused or redundant applications, allowing you to reallocate funds to more effective tools, helping you **maximize the value of every dollar spent on EdTech**.

Unlock comprehensive insights with Blocksi's **deep analytics**. Monitor the most **blocked or allowed websites, track DNS activity, review detailed audit trails**, and gain visibility into user behavior and policy effectiveness. Make data-driven decisions, improve network security, and optimize your EdTech environment with actionable intelligence, all from a single, powerful platform.

- 
- ✓ Analyze the Main Factors Driving Engagement Increases and Decreases
 - ✓ Review App Usage by Application and by Groups or Organizational Units
 - ✓ Focus on Key Drivers of User Engagement

“

Blocksi has been a great addition to our filtering solutions. Web Analytics and detailed reports capabilities make it easy to identify problems and/or adjust for issues you would not know about otherwise.
