The All-in-One Teacher Dashboard for the Modern Classroom

Smart Classroom Management Tools Designed Around the Teacher

Blocksi's Teacher Dashboard is a centralized platform built around the full range of tools teachers need to run an effective, well-managed classroom. Teachers can focus on what they do best, while staying in full control of their classroom — personalizing browsing experiences, adjusting lesson pacing in real time, and blocking or allowing content instantly, right from their dashboard.

Full Control of the Classroom, Without the Extra Workload

From automated scheduling to secure assessments, Blocksi handles the routines that eat into teaching time. The smart Class Scheduler and Assessment Mode all run from the same dashboard — and the AI Hub keeps every lesson covered with the Plagiarism Checker, Quiz Generator, shortcuts to the most popular teacher apps, and more.

BRAINFREEZE

schoolai

Filter the internet with smart filtering policies tailored for individual students or groups. Effortlessly integrate with platforms such as Google Classroom, Clever, ClassLink, Canvas, Wonde, and OneRoster.

Add-Ons:

- **Class Notes** — AI-backed lesson transcription and automatic summaries linked to each individual lesson
- **Digital Hall Pass** — manage hall pass requests, approve or deny on the fly, and monitor active passes without leaving the dashboard

“

Blocksi is a great resource to help keep your students on task and focused! You can screen share, enforce websites, give heads up, and message students on their devices! If you want help to make your classroom smoother, then Blocksi is for you!!!

Real-Time Classroom Management, Simplified

No switching between tools, no manual setup. Every classroom management feature teachers need, exactly where they need it.

- **Real-time screen monitoring** with zoom-in, session replays, and screenshot history
 - **Automatic class rostering** via Google Classroom, Clever, ClassLink, Canvas, Wonde, and OneRoster
 - 25+ EdTech Apps in Assessment Mode with **URL-based secure test-taking**
 - Whole-class **screen sharing** — teacher or student screens, instantly
 - **Automated class scheduling** with pre-set controls that activate and deactivate without any manual input
- A centralized **AI Hub** for the tools teachers reach for most — **Plagiarism Checker, Quiz Generator**, and shortcuts to the most **popular teacher AI apps**
 - **Teacher-level block and allow lists** built on top of filtering policies — override access by URL or domain, at student or class level, on the fly, saveable and reusable
 - Comprehensive **activity reports** covering web analytics, YouTube activity, category breakdowns, search queries, installed apps, and per-student timelines — exportable in PDF/CSV
 - **Videoconference calls** for whole-class instruction, with Breakout Rooms for individual students or smaller groups
- **Student-teacher chat** with **Raise Hand** — students can message their teacher or signal they need help directly from their device
 - **Heads Up alerts** and **student aliases** — get the whole class's attention instantly, with the option to anonymize students in the classroom view
 - **Attendance tracking** and **dynamic seating charts** — at-a-glance presence monitoring with fully rearrangeable student tiles
 - **Substitute and co-teacher support** — up to 3 substitutes with individual logins, or a co-teacher sharing the same class
